

Latherking

LATHERKING SOAP MIXING AND CLEANING INSTRUCTIONS

Proper mixing directions for Campbell's Liquid Shave Cream

For best results –

Mix 4 ounces (1/2 bottle) of Campbell's Liquid Shave Cream and 2 ounces (1/4 bottle) of LatherKing Cleaner with One Gallon of Distilled Water. Shake solution prior to filling LatherKing soap cup. **DO NOT OVERFILL.** Solution must heat in machine for 30 minutes prior to use for best lather (Cool soap produces poor lather).

PROPER CLEANING INSTRUCTIONS AND WEEKLY MAINTENANCE

For best results –

Perform instructions below weekly (or more frequent depending on usage) to clean and maintain the good working order of your LatherKing.

Empty soap cup. Add 4 caps full of LatherKing Cleaner to soap cup, add warm water and run machine. *Caution: Liquid will be hot. Use a towel to catch dispensed cleaning solution.* Repeat if necessary.

Note: Only use Campbell's Liquid Soap and Campbell's LatherKing Cleaner. Using any other products will void warranty and reduce performance.
